Since I have activated my XM Radio .. I LOVE IT! Other than not being able to listen to it while at Sonic and the bank (overhangs and canopies).. I WILL NOT GO BACK TO STATIC DRIVEN *AM*, commercial driven, bad music playing, DJ's only playing music I hated when it came out radio stations ever again!
I have to travel over an hour from home and have certain stations I listen to for the content.. about 30 minutes away they start to fade.. NOT WITH XM.. I always have options!!

Count me as a loyal XM listener for LIFE!!!

what doesn't innovate gets stale.. and radio is stale!

Bob
